Therapy Program

“Rehab to Home”

Mansfield Nursing Center is proud to introduce our new Rehab to Home Program. This program will allow our professional, trained staff to treat residents that need intensive therapy with plans to return home. We have a new “Rehab to Home” room designed to look like a resident’s home with a kitchen area, laundry area, bedroom, living room, and bathroom. They are able to practice and demonstrate that they are able to safely return home and continue their everyday duties. They can also spend the night in this room prior to returning home to ensure their safety when discharged. We also offer an homelike apartment for couples to utilize during their stay with us.

Our Staff

We believe our staff makes the difference. Our veteran staff has been with the facility for more than twenty years and are responsible for this caring family environment at Mansfield Nursing Center. Our Supervisors and Administrators expect more than mere technical compliance with governmental rules and regulations. They demand a staff sensitive to the social and emotional needs of the residents. Consequently, our employees know more than their job - they know the importance of a kind word, a gentle touch, and the healing power of a smile.

Our Physical, Occupational and Speech Therapists are highly skilled in the treatment and rehabilitation of a wide variety of injuries and illnesses. They strive to take therapy to a higher level and dedicate themselves to delivering more than you expect.
